PROFESSIONAL SUMMARY

Product Management professional with **4+ years** of experience spanning **quality assurance**, **business analysis**, and requirement translation across pension/benefits, e-commerce, and blockchain domains. Proven track record driving **product backlog prioritization**, **UX-driven feature improvements**, and cross-functional delivery, with measurable gains in onboarding, conversion, and operational efficiency. Skilled in translating stakeholder requirements into **user stories** and **test cases**, executing **UAT** and **regression cycles**, and using **SQL/Power BI** to surface actionable insights.

SKILLS

QA & Testing: Manual Testing, Regression Testing, Test Case Design, UAT, API Testing (Postman), Bug Triaging, Defect Management

Business Analysis & Product: Requirement Gathering, User Stories, Agile/Scrum, Feature Prioritization (RICE), Competitor Analysis

Data & Analytics: SQL, Power BI, Azure Data Factory, PySpark, Databricks, Data Visualization

AI & Emerging Tech: Generative AI, LLM Prompting, Vibe Coding, AI-Assisted Product Development | **Tools:** JIRA, ClickUp, Postman, Figma, Git

PROFESSIONAL EXPERIENCE

Assistant Product Manager (Contract) — Confidential, Remote

Jul 2024 – Dec 2025

Project: [Scaling a Voice-Based ERP Platform](#)

- Owned and prioritized the **product backlog** across **25+ features and workflows**, aligning day-to-day tasks with sprint goals set by engineering leadership, improving sprint throughput by **15%**
- Decomposed features and workflows into clear tasks and **user stories** for engineering, UX/UI, and QA teams, supporting a **30%** improvement in sprint predictability
- Spearheaded release-readiness planning and end-to-end **UAT** cycles, reducing post-release defects by **20%**
- Established quantitative **usability testing frameworks**, improving core task completion rates by **20%**; restructured digital checkout loops, cutting cart abandonment and drop-offs by **20%**
- Championed a data-driven **UX interface redesign** that amplified successful onboarding completions by **25%**, and streamlined manual vendor verification via a centralized workflow dashboard, condensing turnaround times by **40%**

Software Engineer (Web3 & Blockchain Engineering) — Infrablok India Pvt. Ltd.

Sep 2021 – Apr 2024

Noida, Uttar Pradesh, India

- Automated pharma-logistics **SLA verification** using gas-optimized **Solidity** smart contracts, eliminating **60%** of manual checks
- Engineered **Node.js APIs** using **Ethereum event listeners** to sync blockchain data with internal systems in real time, reducing reconciliation errors by **30%**; delivered a block/transaction data retrieval **API suite** validated in an internal sandbox, cutting data-retrieval latency by **25%**

Software Engineer, QA — Miri InfoTech

May 2021 – Aug 2021

Noida, Uttar Pradesh, India

- Executed **150+ manual test cases** across a cloud marketplace platform and an internal EMS portal, and triaged/prioritized **30+ bugs** across both products
- Validated **80+ API endpoints** via **Postman** for data integrity and system reliability, catching **90%** of defects pre-release

Setup Configuration Specialist (Intern) — Wipro HR Services India Pvt. Ltd.

Feb 2019 – Jul 2019

Gurgaon, Haryana, India

- Configured **40+ Defined Benefit pension plan rules** in **TBA** using the **Advanced Table Editor**, and authored test cases/**regression testing** on plan configurations, reducing go-live errors by **15%**
- Updated **100+ pension plan records** via **CICS/DB2** on the mainframe, as directed by lead

PROJECTS

PM Compass (AI-Powered Decision Support Tool) — [pmcompassai.vercel.app](#)

2025

- Architected a feedback synthesis tool using the **Gemini Flash LLM** to convert unstructured user text into structured product decisions, enforcing strict **JSON schemas** with **low-temperature prompting** for **95%** output reliability
- Integrated **GA4 tracking** to optimize the onboarding funnel, driving a **32.6%** core-value conversion rate; designed the end-to-end product flow as a solo builder, from concept to deployed **MVP**
- Iterated on prompt structure and schema validation across **15+** test cycles to reduce hallucinated or malformed outputs before launch

Data Analytics & BI (Self-Directed Learning Project) — [github.com/essha-jha](#)

2024

- Constructed data pipelines using **Azure Data Factory** and **PySpark/Databricks**, creating managed/external tables and year-partitioned **Parquet files**, reducing query processing time by **30%**
- Designed **3 Power BI dashboards** (sales, churn, patient data) with reusable **DAX measures**, surfacing trends across **10,000+ data points** for non-technical stakeholders

EDUCATION

Master of Computer Applications (MCA – Hons.) — Lovely Professional University, Punjab | 2019 | CGPA: 8.54/10

Bachelor of Computer Applications (BCA) — Dibrugarh University, Assam | 2017 | 69.84%

CERTIFICATIONS & UPSKILLING

IBM AI Product Manager Professional Certificate — In Progress (2026) | **AI for Product Management** — Pendo.io x Google Cloud x Mind the Product, 2025
